TESTIMONIALS:

SHAH MARGI CHIRAG

AIR - 4, UPSC CSE 2024

I was a student of essay edge course 2024 conducted by Farees Rahman sir, the skill enhancement classes by sir helped me discover different approaches of writing an essay with a proper structure and a proper framework. I also got rid of the PESTEL approach, which was necessary to bring a proper flow in my essay. Also, the expertise enhancement classes helped me express myself in a more effective and concise manner, which is the demand of the UPSC essay paper. And apart from that, the notes and the persuasive phrases or the different examples given by sir certainly helped me in creatively putting my thoughts across and conveying my thoughts in the essay. Sir focuses on sincerity and hard work a lot, and his gentle reminders certainly helped me in practicing my essays well, and that has reflected in my improved essay score as well. So I'm very grateful to Farees sir and essay edge is one of a course that is a perfect combination of classes and tests.

With respect to essay, and I've told this to Farees Sir like umpteen number of times, you know, this was a game changer for me when I started talking to Farees Sir and starting his guidance for essay which resulted in a very good score of 128. The USP of this entire course is Farees sir. No one can deny that. The entire essay, exam and approach is quite abstract. What happens is the kind of advice that you get with an abstract aspect like essay is also abstract, generally. People will say write it in a simpler language. The best thing that Faris Sir did for me in this course was in a seemingly abstract arena of UPSC, he was very pinpoint with his suggestions. Like he broke it down into step one, step two, step three, step four, to the extent I remember that he showed me in my paper, you guys have your answer sheets, we're going to be writing your essay, right? So he had demarcated the introduction should not exceed this point, no matter what you're writing. Similarly, I had a tendency of concluding a little abruptly. So time and again with his one-on-one feedback, he had demarcated a point in my paper. So this very precise to the point like hitting the bullseye suggestion with respect to your essay is what Farees Sir will do.

AIR 151, UPSC CSE 2024

Sir has a very scientific way of approaching essay.

People say that there's nothing we can teach about essay in a streamlined way. Against that perception, so this approach towards essay edge divides essay into different parts, and he'll help us to structure each part effectively, starting with respect to the introduction and the conclusion and the body. And throughout the exercises, sir will pick up each part of the essay.

He'll help us to write it as effectively as possible. As part of classes, I still remember having a lot of class exercises, where sir not only gives us the topic or tell us something rather, he'll also make us think then and there and give our answers. So sir classes are also known for being very interactive, and essay being a paper where you have to put forward your thoughts in a personalized way and unique way.

And I think that approach of very interactive classes is something that helped with respect to bringing different dimensions then and there in the class for the different topics that sir was explaining in the class. So once the introduction is done, sir will help us to write the core argument, which is like heart and soul of the essay. He'll help us to understand what exactly is the core argument, what you should write, how you should link it with the major topic and the introduction.

And once structure is done, then he'll help us in coming up with the different dimensions to write in the body, dimensions, counter dimensions, unique examples. And one major thing is along with explaining different aspects in silos, he'll also help us to interlink them in a very smooth way. For Essays, ethics and mentorship, Farees sir is the absolute best!

TANISHI KALRA

AIR 386, UPSC CSE 2024,

I honestly don't know where to start—this rank wouldn't have happened without you. From clearing doubts to calming nerves, from explaining concepts to sharing life lessons, you've been so much more than just a teacher.

Your support throughout my UPSC journey has been nothing short of a blessing. Your words often stayed with me. Thank you for being more than just a teacher—for being a mentor, motivator, and a constant pillar of strength. This rank is as much yours as it is mine. I am grateful for a good essay score of 111.

With deep respect and warm regards.

AIR – 4, UPSC CSE 2024

Sir was From the very first essay for the person who's never written any other essay, Sir started pointing out my strengths in those essays and how I can improve it further and every time Sir picked up one thing.

He didn't give me 10 different feedbacks to work on at a single time. Sir used to pick up one thing, maybe like the flow of my essay or the content in it, conclusion. So, he used to pick up one thing like that and make sure that I work on that thing alone, improve it sufficiently and then once that was sorted, he would move to our next aspect of the essay. I think seven or eight people in the mentoring group, Sir ensured that with each person so closely mentored all of us, he had seen the way we write essay like over I think one or two years and based on all those experiences, Sir would tell. Sir clearly knew how we write an essay, what kind of persons we are, the style we had and based on those individual skills, Sir used to try to help us improve and I think that is very important that customized and personalized feedback really made me focus on what I need to improve on, what I need to work on and I really would like to thank Farees Sir with all my heart. I think Farees Sir was the sole reason for me to get so much marks in essay.

TEDLA SAI PRANEETH,

ESSAY SCORE 138 IN 2023

In my earlier attempt, the score in essay I got was 100 marks.

There I used to write horrible essay. I don't know how to structure and everything. So after I joined the essay edge course by Farees Sir, I understood how each part of the essay should be tackled properly starting from introduction, core argument, body and conclusion.

After every essay, Farees Sir used to tell me some inputs on which I used to work upon and this has consistently led to improvements in every aspect which ultimately led to my score improving from in 2020 to 100 to 138 in 2023, which is one of the highest marks. So I attribute mostly this for the efforts of Farees Sir, which he put so that I'll get my personalized inputs. It's not like he'll be suggesting a systemized input for everyone.

He'll be giving a personalized input. It also reflects your originality and that is the actual quality of essay edge course by Farees Sir.
